

PROPALMS - COMPANY PROFILE

INTRODUCTION

Propalms Inc is a US based publicly listed company (**OTCBB:PRPM**). <http://www.propalms.com>

With over 2000 customers worldwide, 500,000 concurrent users, and partners globally, Propalms is now recognized as a fast growing player in the Server Based Computing and Virtual Desktop and Virtual Private Network market.

Propalms vision is to focus on its award winning TSE software, and continue to develop innovative products for the Server-Based global market, from the SMB to the large enterprise.

PRODUCT

The TSE product is designed to suit the needs of all sizes of organizations from 5 to 50,000 plus users. TSE is an intricate management tool and was developed over a period of some three years by its original owner New Moon Inc., at a cost estimated to be \$30 million. It is functionally comparable to a similar product developed and sold by the market leader Citrix Systems Inc.

CUSTOMERS

Customers have found TSE to be easier to use, faster to implement, cheaper to maintain than other similar software, which is important to small and medium sized companies or governmental offices as well as large enterprise organizations that are looking to reduce their IT infrastructure costs.

Our current customer base, range from companies in both the public and private sectors some examples of current users by industry are:

PROPALMS - COMPANY PROFILE

OPERATIONS

Propalms currently operates from four locations. The head office is in Malton, North Yorkshire UK, where the management team and administration are based together with the UK technical support staff, there is a sales office in London UK where one of the directors is based and a US sales operation, in Denver Colorado. The technical development and support team are based in Pune, India.

DIRECTORS

Propalms currently has two directors and one non executive director:

Owen Dukes, Chief Executive Officer

Robert Zysblat, President and Chief Financial Officer

Nakul Sood, Non Executive board member, heads up the development team in Pune, India

The director's backgrounds are:

Owen Dukes: Aged 41 has spent the whole of his business career in the software industry. He started as a software engineer with a leading distributor of networking software and then moved into technical sales management with a leading Microsoft partner. He then joined an international software vendor to manage its worldwide distribution network. In October 2001 he founded Propalms Limited as a distributor of internet filtering software. In April 2003 Propalms acquired Arc Technology Distribution Limited a distributor of connectivity, networking and security software which was sold in July 2005.

Robert Zysblat: Aged 52 years has spent the last 27 years in the software industry. His first role was as part of a team that created within the year 1984 a world leading computer game company and which was sold to the Virgin Group. Subsequently he has acquired, developed and sold a number of software companies where he has been the C.E.O. He has gained considerable experience of devising and implementing strategies for successful growth and has gained extensive general and financial management expertise.

Nakul Sood: is responsible for the development and support team in Pune, India. He has many years experience in support and development and also runs a successful out sourcing company called Aloha Technologies which currently employs more than 100 developers.
